-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1618

Claims 1-27 are presented for examination.

The remarks filed on November 27, 2005 have been received and entered.

Claims 1-27 are rejected under 35 U.S.C. 112 first paragraph for the reasons set forth on pages 3-5 of the office action of August 29, 2005.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that the claims of the instant application are not drawn to the treatment or prevention of any disorders. The allegation is not well taken. The claims of the instant application are drawn to a method to inhibit activation of an inflammatory cell, which interacts with columnar epithelium. Such inhibition causes the treatment or prevention of certain disorders. The instant specification provides guidance and it is only enabled for the treatment of certain inflammatory disorders of epithelium of different parts of the body. Applicant specification does not set forth a representative number of examples to demonstrate that lipoxin A4 is capable of treating or preventing a representative number of disorders associated with inflammation of columnar epithelium.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-14 are rejected under 35 U.S.C. 102 (b) as being anticipated by WO 90/13292. WO Patent teaches the use of Lipoxin A4 for the treatment of vasoconstriction which is found in diseases such as asthma, allergic reactions and

inflammatory reaction in different parts of the body. See page 8, lines 16-31. Such use would inherently inhibit the activation of an inflammatory cell. The above reference also teaches the synthetic analogues lipoxin A4. See page 6, lines 14-17.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zohreh A. Fay whose telephone number is (571) 272-0573. The examiner can normally be reached on Monday to Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Hartley can be reached on (571) 272-0616. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
